

Approval Form for Publications

Max-Planck-Institut
für Meteorologie

You are corresponding author
An internal review is necessary

Co-author

1. Information about the article (Fields with * are mandatory)

Journal*

Title*

Author/s*

Please insert the names or attach the first page of the manuscript. Authorship must have been discussed with all co-workers involved.

Author contributions

If you are corresponding author please specify the contribution of the various authors to (if applicable): concept design, formal analysis, investigation, methodology, supervision, visualization, writing, review, and editing.

2. Information about primary data and other supplementary material relevant to the article

If you are corresponding author please specify where the publication-relevant primary data can be found. For more information about archiving primary data see the [Guidelines for Scientific Publications](#).

MPG Publications Repository - MPG. PuRe (Data archive < 100MB): Please agree with the [repository manager](#) where the data can be retrieved.

External Storage (e.g. LTA at DKRZ, WDCC): URL or PID

The authors comply to the rules of [Good Scientific Practice](#) and agree to the publication including the fulltext on the MPG Publications Repository (MPG.PuRe) according to copyright rules.

Date / Signature MPI-M Author

Date / Signature Internal Reviewer

Date / Signature Director of the Department

Print this form for the signatures and give it to the library latest after the submission of the article. Please inform the repository manager (publications@mpimet.mpg.de) about changes in article status (accepted, published, rejected) and the identifiers of primary data.
